

Editor's Comment:

You can accept the manuscript after the following has been attended to:

1. LSD values on table 1 to 3 should be indicated.
2. The tables should have titles.
3. Indicate result section as 3 and not 4
4. Written as 4.8 statistical analysis section should be moved as a last sub-section (2.2) under materials and methods.

Editor's Details:

Dr. Langa Tembo
