

Editor's Comment:

I see it's good but there is only one remark that has not been taken into consideration

The structures of the identified compounds from *C. hildebrandtii* and the structures of the identified compounds from *C. rotundifolium* shown in Figure 3 and Figure 5.

Figure 3: Structures of compounds identified from methanolic extract of *C. hildebrandtii*

Figure 5: Structures of compounds identified from methanolic extract of *C. rotundifolium*

It's better to remove all these structure from your research they haven't no importance to place them here.
