

Editor's Comment:

Manuscript title: Monitoring the maturation of crambe seeds using X-ray image analysis

I have read both the original and the revised manuscript.

I think that the paper in the second version is suitable for publication in the Journal of Experimental Agriculture International.

The two reviewers indicated only minor revisions.

The manuscript concerns an important research topic it could increase the knowledge of the scientists.

Editor's Details:

Dr. Francesco Montemurro

Professor, C.R.A. SSC - Research Unit of the Study of Cropping Systems, Metaponto, Italy
