

**Editor's Comment:**

I've no objection to agree with that the author/s has made the necessary changes as recommended.

However, minor corrections required on the following:

1. Sentence: From Figure 1 above, it can be seen clearly...

Suggestion: delete the word "above" as the final setting subjected to final printing.

2. Sentence: The sampling technique used was the personal judgment and convenient type. questionnaires were employed

Suggestion: Change questionnaires to Questionnaires ( capital Q).
