

Editor's Comment:

The manuscript entitled "Antimicrobial Resistance in isolates of Streptococcus pneumoniae during January 2016 to December 2017 in Dr. Lal Path Labs, Delhi" has been accepted to be published in 'Asian Journal of Research in Infectious Diseases'.

However, author(s) need(s) to check the following limitations and correct accordingly:

- The manuscript requires English editing.
- References to be corrected and numbered accordingly in the text. Numbering needs to be checked.
- The format of the figures should also be checked.
