

Editor's Comment:

The authors have presented long INTRODUCTION (about 7 pages) which has no direct relevance with the proposed title e.g., Page 1-3 information can be shortened to 1-page only which is not related to proposed study and vice versa.

Introduction may start with climate change, rainstorm, damage, livelihood, etc as suggested by some esteemed reviewer also.

Information presented in Fig.1-3 is also stated in text hence needs to be deleted to avoid repetition.

Similarly Tables mentioned in Introduction is self explanatory hence no need of giving Tables (interested future researchers may go the cited reference).

Fig. 4-10 may be placed together e.g., Fig. 4(a.....)

Reference as per Journal Format (e.g., ref.5 and 6 are presented in different style)
