

Editor's Comment:

This manuscript still needs more modification.

Extensive editing of English language and style is still required

The research design is not appropriated

The methods are not adequately described

The results is not adequate and needs more interpretations in the discussion section

The results is not adequate and needs more interpretations in the discussion section

Due to the above drawbacks, I regret to inform that the paper cannot be considered for publication in International Journal of Pathogen Research.

Editor's Details:

Dr. Nagwa Mostafa El-Sayed

Professor, Department of Medical Microbiology& Parasitology, Research Institute of Ophthalmology,
Giza, Egypt
