

Editor's Comment:

Frankly speaking, the manuscript entitle EFFICIENCY IMPROVEMENT FOR ORDINARY LEAST SQUARE AND OTHOGONAL REGRESSION - AN APPLICATION IN CHEMICAL ENGINEERING needed a lot of corrections.

1. Title "othogonal" need to change "orthogonal"
2. No precise of result explanation in abstract
3. More elaboration needed in introduction with "why" the study was conducted
4. More explanation are needed on both parts of methods and results & discussion. Poorly addressed the method and result are leading to major correction
