

Editor's Comment:

As per the documents received, I have reviewed them and agree that it could be published. However, there are many typographical errors and punctuations which need to be corrected in the revised manuscript before it can be presented for publication. In addition, figure 2 seems to appear nowhere in the text. Could it be inserted at the appropriate space? The spelling errors such as gestational are written as geatational.

The references need to be reviewed accordingly
