

SDI Review Form 1.6

Journal Name:	Archives of Current Research International
Manuscript Number:	Ms_ACRI_38730
Title of the Manuscript:	ASSESSMENT OF BIOETHANOL POTENTIAL OF LEMON GRASS
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments		
Minor REVISION comments		
Optional/General comments	While I appreciate the care with which it was carried out, I have several limitations. Based on the downstream potential (as compared to conventional methodological advantage or commercial biomass target) via mass balance, it may be improved and discussed. In addition, in a point of scientific advance/meaning, it may be obscure. Writing and reference may be rechecked and improved.	Thank you. All suggestions are noted and I will affect the correction.
