**General guideline for Peer Review process:**

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

**PART 1: Review Comments**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	Good analysis, Four mayor constraints have been noted, but what are the opinions of the authors having worked in this domain?  <b>Complete the discussion</b>	Completed the discussion in conformity with the suggestion received.
<b>Minor</b> REVISION comments	The explanations of logical framework had to meet in the introductory part to sustain the problematic  The explanations of the pictures and diagrams have been put before these last, what is not easy to really understand the text, it is worth to put them after the pictures	As advised, explanations offered through logical framework in the methodology section has been taken out and merged with the introductory part for better indicating the nature of the problem and purpose of the study.  Tables and figures have now been placed ahead of the relevant explanations as being sought for.
<b>Optional/General</b> comments		

**PART 2:**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Are there ethical issues in this manuscript?</b>	(If yes, Kindly please write down the ethical issues here in details)	Not applicable as no ethical issues are associated with the manuscript.
