PART 1: Review Comments

| | Reviewer's comment | Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here) |
|-------------------------------------|---|---|
| Compulsory REVISION comments | <p>-The paper needs a very careful proof-reading as there are many typos and grammatical errors (Lines: 15, 18, 93, 95, , and many others).</p> <p>-The paper is not comprehensive in terms of explaining the methodology. Details on sampling frame, sampling method, development and validation of the measures, questionnaires, interview forms, etc. should be explained. The number of respondents is insufficient. In abstract part the author/s state that they employed structured questionnaire and conducted in-depth interviews. In methodology part, it can be seen that they purposively employed 50 people to fill out the questionnaire forms. First question; How can you say "...most of the indigenous textile entrepreneurs are young, energetic and active..." based on the data you gathered just from 50 people? Second question; where is the info about the in depth interviews.</p> <p>- We are already in May, June 2019. How could it be possible to reach those goals? the main goal of halving poverty level by year 2020 i.e to reduce poverty by half and becoming among 20 largest World Economies...</p> | All the suggestions of reviewer have been noted and modified accordingly |
| Minor REVISION comments | | |
| Optional/General comments | | |

PART 2:

| | Reviewer's comment | Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here) |
