

**SDI Review Form 1.6**

Journal Name:	<a href="#">Asian Journal of Biotechnology and Genetic Engineering</a>
Manuscript Number:	Ms_AJBGE_43120
Title of the Manuscript:	EVALUATION OF FIRST AND SECOND ORDER DEGRADATION RATES AND BIOLOGICAL HALF-LIVES IN CRUDE OIL CONTAMINATED SOIL.
Type of the Article	

**General guideline for Peer Review process:**

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

**PART 1: Review Comments**

	<b>Reviewer's comment</b>	<b>Author's comment</b> (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	<p>Title *The present title requires modification to incorporate the use of Goat Manure</p> <p>ABSTRACT *Abstract is informative</p> <p>KEY WORDS *Keywords are relevant but note that keyword is a compound word</p> <p>INTRODUCTION *Background information are relevant and appropriately cited *Sources provided are recent *The statement of problem was articulately stated *Your objective should be the reframed to indicate the need of enhancing biodegradation efficiency using manure</p> <p>MATERIALS AND METHODS *This section is properly and appropriately formulated</p> <p>RESULTS AND DISCUSSION *All figures and tables should be presented in the position they were first cited</p> <p>REFERENCES *Follow the example provided below</p>	<p>TITLE Your recommendation was appreciated. But the authors wish to state that the focus of the manuscript was on the degradation rate constants and biological half-lives</p> <p>RESULTS AND DISCUSSION</p> <ul style="list-style-type: none"> <li>The objective was revised and it indicated the need of enhancing the degradation efficiency of contaminated soil using goat manure</li> <li>Figures and tables were present in the position of first mention</li> </ul>
<b>Minor</b> REVISION comments	1. More recent literatures can be added to INTRODUCTION and RESULT AND DISCUSSION	More references were added in the INTRODUCTION and RESULT AND DISCUSSION
<b>Optional/General</b> comments	The paper requires proof reading by authors to reduce all the avoidable errors. Pay special attention to INTRODUCTION, METHODOLOGY, and RESULTS AND DISCUSSION section.	

As per the guideline of editorial office we have followed VANCOUVER reference style for our paper.
