

SDI Review Form 1.6

Journal Name:	Asian Journal of Biotechnology and Genetic Engineering
Manuscript Number:	Ms_AJBGE_47047
Title of the Manuscript:	New Documentary of Acid-Stable Glutaminase Production by an Efficient Acidophilic Aspergillus niger CPGM 1439
Type of the Article	Original research paper

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments		
Minor REVISION comments	The publication covers a certainly import and aspect in Biochemistry, which is very important as a strategy for getting these enzymes in food industry application. This work is well performed, the manuscript is adequately written. - The potential of the present paper is sufficiently high. This is an interesting manuscript.	
Optional/General comments	- Indicate the number of performed assays and the statistic calculus Some mistakes must be done: -P 2: paragraph 2.3 line 8 (so;)!! - P 2: producer's - P2: mL not m1 - P4. HCl and not HCL - Review the table form and titles page 7, table 4 - Review the references inside the text and try to homogenize them	All corrections were done and highlighted. Thank you. The number of factors studied on enzyme productivity was mentioned on page 3.

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
