The writer added research questions to the article which makes it better. However, the data collection process is not given in detail. In particular, examples of the questionnaire should be given to support the research. Another important thing is that writer should explain in detail how the data was analyzed.	<p>Thank you for the comments</p> <p>The data collection process is explained under participants</p> <p>Please we need clarification on the query on <i>examples of questionnaires</i>. The questionnaires used for this study was explained under <i>2.2 measures</i>.</p> <p>Detail of Data analysis has been provided.</p>
