<b>Compulsory</b> REVISION comments	<p>1) I have highlighted in <b>red</b> areas that I think should be explained and elaborated in a clear and concise manner.</p> <p>2) An example of a good SWOT ANALYSIS link <a href="https://www.strategicmanagementinsight.com/tools/swot-analysis-how-to-do-it.html">https://www.strategicmanagementinsight.com/tools/swot-analysis-how-to-do-it.html</a> NB: To add further clarity and value to the SWOT ANALYSIS please show a prioritization of your Strength and Weaknesses and Opportunities and Threats. This will allow the reader to gauge what is the most important factors for example: Strength &amp; Weaknesses can be prioritized using Importance/Rating/Score, while Opportunities &amp; Threats can be prioritized as using Importance/Probability/Score.</p> <p>3) Another suggestion is please expand your literature review to other developing countries. GO TO googlescholar type "GOVERNMENT HEALTH INSURANCE SCHEMES FOR DISABLED PERSONS IN DEVELOPING COUNTRIES" this may allow you to include in your policy paper more recommendations from other developing countries like India and how they are catering for differently abled persons in their countries. This may allow you to identify and present a best practice(s) from other developing countries.</p>	have highlighted the required changes, to the best of the authors knowledge we have added to current references, but unfortunately due to increased lacunae in this field, couldn't add more.
