General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound.
To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline)

PART 1: Review Comments

	Reviewer's comment	**Author's comment** (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments		
Minor REVISION comments	**Paper needs further improvement; it needs to be reduced to the standard size of the paper in around 3000 – 5000 words or as per journal policy.** Review of literature should be enhanced. Data interpretation should be more focused, as it is visible that data analysis is more and its interpretation is not justifying the analysis. Methodology should be enhanced furthermore.	Correction noted and effected Correction noted and effected Correction noted and effected
Optional/General comments		

PART 2:

	Reviewer's comment	**Author's comment** (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details) Consent for respondents should be mentioned in the paper. Or of any agency through which researcher reached to the respondents	Correction noted and effected
