General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<p>This is a good review of the effects of maternal nutrition, substance use, and illness on the immune system of the fetus.</p> <ol style="list-style-type: none"> 1. English needs major editing. 2. How was the review conducted – what databases were used, what years, what languages, what inclusion criteria, what was excluded? 3. Include limitations of this review 	<ol style="list-style-type: none"> 1. I have used Grammarly application for the English editing. 2. The database used were mainly from ScienceDirect, Pubmed and Google Scholar. There was no limit for the search: in terms of years etc. 3. Limitations: I have included that some explanation that some animal studies only looked at a single nutrients – which may be inconclusive, as organ development required various type of nutrients.
Minor REVISION comments		
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
