

**SDI Review Form 1.6**

Journal Name:	<a href="#">Asian Journal of Probability and Statistics</a>
Manuscript Number:	Ms_AJPAS_46556
Title of the Manuscript:	Exponentiated Pranav Distribution and Its Applications
Type of the Article	Original Research Article

**General guideline for Peer Review process:**

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

**PART 1: Review Comments**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments		
<b>Minor</b> REVISION comments	<ol style="list-style-type: none"> <li>1. The graphs of estimating mean square error of the MLE for different values of parameter should be plotted into the study.</li> <li>2. Graphs for different parameters and fitted probability plot of distributions should be considered and plots as well.</li> </ol>	<p>The plots of the probability distribution for different parameters is shown in figure 1.</p> <p>The graph of the mean square error of the MLE for different values of the parameter is not possible using the MAXLIK package in R. However, the results shown should suffice in explaining the superiority of the proposed distribution to other competing distribution.</p>
<b>Optional/General</b> comments		

**PART 2:**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
