

SDI Review Form 1.6

Journal Name:	Asian Journal of Probability and Statistics
Manuscript Number:	Ms_AJPAS_47695
Title of the Manuscript:	Comparative Study on the Degree of Randomness of the Random Number Tables
Type of the Article	Review Paper

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<ol style="list-style-type: none"> 1. The literature review is poor and the authors should use updated references to define the novelty of their article clearly. 2. Statistical analyses should be performed to refine the raw data to random number datasets arranged in tabular form. 3. A detailed description of the method and relevant tests of randomness should be discussed. 	<ol style="list-style-type: none"> 1. All relevant recent reviews were incorporated in this field, which are required to draw a valid conclusion. Chakrabarty's most recent developed random number table has also been mentioned and highlighted as well. 2. As it is a review paper, only findings of other researchers were presented within its scope. 3. Descriptions have been presented in tests of randomness section (3.1, 3.2, 3.3).
Minor REVISION comments		
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
