

SDI Review Form 1.6

Journal Name:	Asian Journal of Probability and Statistics
Manuscript Number:	Ms_AJPAS_49545
Title of the Manuscript:	Bayesian Models for Zero Truncated Count Data
Type of the Article	

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<p>Paper is accepted after following addition.</p> <p>Flow chart of proposed Bayesian model must be added to increase impact of research.</p> <p>Please make separate headings of discussion of result, and conclusion.</p> <p>Please add the software name used for simulation graphs.</p>	<p>(1) The Bayesian Models proposed were MCMCglms and Bayesian Multi-level. These have been clearly outlined; though additions have been made to further explain the models.</p> <p>The "discussion" has been separated from the "conclusion".</p> <p>The software used for the graph was R, by R Core team (2019), and the specific package used in R was "brms". The Software and packages have been cited accordingly, even before revision. They are contained in references [18] and [22]</p>
Minor REVISION comments		
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
