**PART 1: Review Comments**

|                                     | Reviewer's comment  | Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)   |
|-------------------------------------|---|---|
| <b>Compulsory</b> REVISION comments |   |   |
| <b>Minor</b> REVISION comments      | <p>I believe this manuscript was very well written. The same is presenting information necessary to understand the problem to be discussed and also presents, methodically detailed, how the production process of this study was and the results were discussed and presented properly.</p> <p>I think authors need only read the manuscript again and correct minor grammatical and spelling problems. In addition, authors can also form references, since they are not uniform.</p> <p>I believe that the article is interesting and presents content of valid scientific value and that can help to improve the training of pediatric nurses. I propose the publication of the manuscript.</p> | <p>After Compliments</p> <p>I would like to provide profound gratitude to your time-consuming in the revision of my manuscript and valuable comments. It is my pleasure to hear from you about the importance of the study.</p> <p>I revised my manuscript and highlighted the correction with a yellowish colour. Please see the attached fill in the titled manuscript after modification</p> |
| <b>Optional/General</b> comments    |   |   |

**PART 2:**

|   | Reviewer's comment  | Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here) |
|---|---|---|
| <b>Are there ethical issues in this manuscript?</b> | (If yes, Kindly please write down the ethical issues here in details) |   |

SDI Review Form 1.6

Before starting the study, the researcher got official permission from the Faculty of nursing Council (IBI ) to conduct the study, also the tools revised by experts in the pediatric field. Moreover, agreement to conduct the study was obtained from the Head of the Pediatric Care Units, also nursing students agreed to participate in the study was obtained. The aim of the study and procedures were explained to the students to attain their cooperation. They were informed about the threats and benefits, that their participation was entirely voluntary, their rights to drop out from the study at any time, or choose not to answer the questions with no consequences on their academic achievements. Confidentiality of the information was ensured.
