

## SDI FINAL EVALUATION FORM 1.1

### PART 1:

Journal Name:	<a href="#">Asian Journal of Research in Biochemistry</a>
Manuscript Number:	Ms_AJRB_46396
Title of the Manuscript:	Evaluation of the Mineral and Vitamin compositions of Leaves of Thaumatococcus daniellii and Alchornea cordifolia
New title:	Evaluation of the Mineral and Vitamin compositions of Leaves of Alchornea cordifolia and Thaumatococcus daniellii
Type of Article:	Original Research Article

### PART 2:

FINAL EVALUATOR'S comments on revised paper (if any)	Authors' response to final evaluator's comments
<p>Write the names of the plants in full in the abstract Include T. danielli in the keyword.</p> <p>Review the first statement in the introduction about micronutrients.</p> <p>Present tables 1 and 3 together and 2 and 4 together. See if you can run a test of significant on them using either <math>P=.01</math> or <math>P=.05</math>. Use the outcome of the findings to further strengthen this article. Use ANOVA or paired test.</p> <p>The reference is not in accordance to the SDI authors' guideline. It was not numbered and there are some that are highlighted in red. Fix them.</p> <p>Check the manuscript for some other points made in it.</p>	<p>1. The names of the plants have been written in full in the abstract as well as in the keyword according to your valuable suggestions. Thanks a lot</p> <p>2. The statement on micronutrient has been reviewed. Thanks for your contributions</p> <p>3. Table 1&amp;3 as well as 2&amp; 4 have been merged together in line with your suggestion. Mean values generated have been subjected to ANOVA</p> <p>4. References have been properly arranged according to SDI guidelines</p>
