

SDI Review Form 1.6

Journal Name:	Asian Journal of Research in Biochemistry
Manuscript Number:	Ms_AJRB_47065
Title of the Manuscript:	Evaluation of the Effect of Action Bitters (Herbal Mixture) on Some Biochemical Indices of Albino Rats
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<p>1- Language and spelling should be revised throughout the whole manuscript.</p> <p>2- The author should mention the references for sample preparation and doses.</p> <p>3- The author should mention all details of companies that produce the chemicals and kits that used in this research.</p>	<p>Ok. Thank you. Proof reading has been done.</p> <p>The technique involved in the preparation of blood specimens are based on standard laboratory procedures and the treatment dose (0.68ml/kg bodyweight) was based on miming or simulating how it is been consumed in a human adult. It is recommended by the manufacturers of the herbal bitters that 50mls of the bitters should be consumed daily by an adult weighting at least 75kg.</p> <p>Ok. Thank you for your input. This has been done too.</p>
Minor REVISION comments		
Optional/General comments		Thank you for your comments and corrections. It will definitely make this work better. I am grateful.

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<u>(If yes, Kindly please write down the ethical issues here in details)</u>	There are ethical issues in this work since the it involved the use of experimental animals. Therefore, the principles of laboratory animal care (NIH Publication no. 85-23, revised 1985) were followed, as well as specific national laws where applicable. All experiments have been examined and cleared by the ethics committee of the Rivers State University, Port Harcourt.
