

EDITORIAL COMMENTS:

I have few comments

Introduction section is too lengthy it must be shortened

Figure caption is missing for Fig 1-7

In case of fig 8. in this tree Nigerian and exotic land race may be indicated in parenthesis.

In general language of ms may be improved.

AUTHOR'S FEEDBACK:

I have reduced the introduction a little bit.

Figures 1 – 7 had been captured in the body of the report and panted yellow

I have indicated the Nigerian and exotic land races in parenthesis in the panted yellow comments in the report. Figure 8 is difficult for me to edit that is why I took the earlier measure.

I have looked through the entire ms again

Thank you for painstakingly reviewing this manuscript.
