EDITORIAL COMMENT S on revised paper (if any)	Authors response to editor s comments
<ol> <li>Authors have not provided ethical committee approval number for their study protocol. Merely mentioning that the study was approved by ethical committee does not suffice.</li> <li>Amongst the quoted References ,except ref 18,none of the other references are directly related to H. floribund extract.3 references are indirectly related. Adequate and apt references may kindly be added.</li> <li>Conclusion has to be redrafted because of equivocal histology findings of testes and ovaries. The author have not estimated male hormones like testosterone or female hormones like progesterone and oestradiol. As mentioned in ref 18, the author's observations do not necessarily support the author's conclusion of benefit in sterility.</li> </ol>	There is no ethical committee no. This work was done in two phases,this is the second phase.conclusion has been redrafted.
