

**SDI FINAL EVALUATION FORM 1.1**

**PART 1:**

Journal Name:	<a href="#">Asian Journal of Research and Reports in Gastroenterology</a>
Manuscript Number:	<b>Ms_AJRRGA_44395</b>
Title of the Manuscript:	<b>Prevalence and pattern of NSAID consumption among patients with upper gastrointestinal bleeding</b>
New title:	<b>Prevalence and pattern of NSAID consumption among patients with uppergastrointestinal bleeding_ a case-control study</b>
Type of Article:	<b>Original Research Article</b>

**PART 2:**

<b>FINAL EVALUATOR'S comments on revised paper (if any)</b>	<b>Authors' response to final evaluator's comments</b>
<p>Could the author consider the title "A case-control study on the risk of UGIB in patients taking NSAIDs in Mashhad, Iran" – because once s/he says "prevalence and pattern" it gets confusing                      Results section – Tables 3,4,5 can be made into graphs                      Line 178, 179 discuss a Table 6 which is not present.                      Line 188 – table 7 is supposed to be table 6                      The paper is still too long, it could be shortened further.</p>	<p>1. Title was changed into the suggested statement.                       2. Tables 4,5 were changed into graphs. But we think table 3 is better to remain as table.                      3. Line 178,179 were related to the part of Hgb.... which was recommended to be deleted at the previous peer review. Lines were omitted.                      4. The number of table in line 188 was corrected.                      5. Some unnecessary sentences were deleted at "discussion".</p>
