

Editor's comments:

I only have a small requirement: the authors should note the method they used to measure total flavonoids in the MATERIALS AND METHODS part.

Author's feedback:

There was a mixed up in writing the reference, the last name was exchanged with the first name. The English and Indonesian versions of the reference are given below.

Djumali SK, Isolation and identification of flavonoid compound from the leaves leaves ether Gynura Procumbens Banker. Undergraduate thesis, 1997, University of Surabaya, Indonesia.

Djumali, SK. Isolasi Dan Identifikasi Senyawa Flavonoid dari Fraksi Eter Daun Dewa (Gynura Procumbens Banker). Undergraduate thesis, 1997, University of Surabaya, Indonesia.
