<b>Compulsory</b> REVISION comments		
<b>Minor</b> REVISION comments		
<b>Optional/General</b> comments	<p>Authors introduced linear maps that preserve rank-additivity and rank-sum-minimal on tensor products of matrix spaces successfully. Theorems are true and interesting. References are enough for this study. But writing style and design of manuscript are not good. It is tired for reader.</p> <p>As a sequence, it can be accepted for publication.</p>	<p>I am very sorry, I have been studying English, but the study is not very good.
