

SDI Review Form 1.6

Journal Name:	Asian Research Journal of Mathematics
Manuscript Number:	Ms_ARJOM_47205
Title of the Manuscript:	Linear Maps Preserving Rank-additivity and Rank-sum-minimal on Tensor Products of Matrix Spaces
Type of the Article	Short Research Articles

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	Kindly include a Conclusion section to your study.	Conclusions: This paper correctly demonstrates linear maps preserving rank-additivity and rank-sum-minimal on tensor products of matrix spaces. This result has a certain significance for future research on tensor products of matrix spaces. In fact, starting from preserving problem, more problems can be studied. For example, removing the linear condition and change it to the addition condition and the square matrix is changed into a general matrix.
Minor REVISION comments		
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
