

SDI Review Form 1.6

Journal Name:	Asian Research Journal of Mathematics
Manuscript Number:	Ms_ARJOM_49320
Title of the Manuscript:	On Some Inequalities for the Chaudhry-Zubair Extension of the Gamma Function
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments		
Minor REVISION comments	The English language should be polished, mainly in the non-mathematical text (introduction).	The English language has been improved.
Optional/General comments	The results presented in this paper are not spectacular, but correctly obtained and necessary in order to develop a newly opened direction of research. The research presented in this paper results in obtaining algebraic and analytic inequalities that may be useful in further applications of the recently introduced extension of the Gamma Function. We think about further applications in statistics, for example. The paper is well connected to the existing literature. The paper is worth to publish.	Thank you.

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
