General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments		
Minor REVISION comments	Format the document to avoid joined words, I have done that in the attached reviewed copy and if you agree, accept the tracked changes	Yes we agree. We would not prefer to add "untreated" before control since, control means untreated. We have done all the other changes as suggested.
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details) The present study was approved by the Institutional Ethical Committee (IEC) of Gujarat University, Ahmedabad, India – the ethical issues were addressed.	As we have used human peripheral blood samples, we have taken the Institutional Ethical approval as per the rules of our country and University.
