

**SDI FINAL EVALUATION FORM 1.1**

**PART 1:**

Journal Name:	<a href="#">British Journal of Applied Science &amp; Technology</a>
Manuscript Number:	Ms_BJAST_30481
Title of the Manuscript:	EMODIN ISOLATION FROM THE LEAVES OF PTERIDIUM ACQUILINUM
Type of Article:	Original Research Article

**PART 2:**

FINAL EVALUATOR'S comments on revised paper (if any)	Authors' response to final evaluator's comments
There is need for bibliography. The discussion is very insufficient. Authors need to revise current literature not only to the subject of the title of the paper but also on extraction techniques and further on paharmacognosy on related compounds etc. Currently the revision done is insufficient.	The article has been lengthened by reviewing more literature of related works. The bibliography of the various authors has not been included but the pharmacognosy of plants have been added to it
