Journal Name:	British Journal of Applied Science & Technology
Manuscript Number:	Ms_BJAST_30481
Title of the Manuscript:	EMODIN ISOLATION FROM THE LEAVES OF PTERIDIUM ACQUILINUM
Type of Article:	Original Research Article

PART 2:

FINAL EVALUATOR'S comments on revised paper (if any)	Authors' response to final evaluator's comments
<p>I cannot understand the reason for not including bibliography data as references at the end of this manuscript. If these are unpublished data these should be mentioned and provide the main authors name et al....</p> <p>Clarify reasons for not including data supplementing this present form of this manuscript in the reference list. Otherwise there is serious risk for plagiarism.</p>	<p>Sorry for the time lapse. We have included the bibliography and also declared that there is no competing interesting in the manuscript. These are our original research findings, feel free to confirm.</p> <p>In addition we have changed the referencing style to confirm that of the journal for ease of work. Please pardon us for the wasted time.</p>
