SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)												
Compulsory REVISION comments	<p>Try to follow the format of the journal for abstract development and manuscript as well. Make the structured article. Arrange the keywords alphabetically Write the proper citation and reference in the introduction Lots of literature are available in the Menstrual hygiene, try to add more and make your manuscript readable. In Methods and materials parts, you are only describing the tools and techniques of data collection with analysis, you should the research design, methods, place, sampling strategy, etc. Graphs have no meaning anymore in this manuscript. Make the proper table and interpretation of hypothesis. Why you set the negative statement in the null hypothesis.</p> <p>Ethical issues:</p> <p>Parental and assent consent is not mentioning throughout the manuscript.</p> <p>Plagiarism Issue:</p> <table border="1"> <tr> <td>It is the natural process of the reproductive cycle in which 25 blood from the uterus exits through the vagina.</td><td>https://www.docnme.com/blog/the-taboos-...</td><td>70</td></tr> <tr> <td>Menstruation knowledge and its hygiene practices are 26 clouded by taboos and socio cultural restrictions resulting in adolescent girls re...</td><td>https://link.springer.com/article/10.1007/s120...</td><td>65</td></tr> <tr> <td>27 scientific practices and facts and hygienic health practices, which sometimes result into adverse 28 health outcome.</td><td>https://www.researchgate.net/publication/30...</td><td>35</td></tr> <tr> <td>Hygienic practices of women during menstruation are of considerable importance, as 29 it has a health impact and it can cause reproduct...</td><td>http://www.medicinearticle.com/JMR_201514...</td><td>62</td></tr> </table>	It is the natural process of the reproductive cycle in which 25 blood from the uterus exits through the vagina.	https://www.docnme.com/blog/the-taboos-...	70	Menstruation knowledge and its hygiene practices are 26 clouded by taboos and socio cultural restrictions resulting in adolescent girls re...	https://link.springer.com/article/10.1007/s120...	65	27 scientific practices and facts and hygienic health practices, which sometimes result into adverse 28 health outcome.	https://www.researchgate.net/publication/30...	35	Hygienic practices of women during menstruation are of considerable importance, as 29 it has a health impact and it can cause reproduct...	http://www.medicinearticle.com/JMR_201514...	62	<p>Format of the journal has been followed Keywords have been arranged alphabetically Research design, methods, place and sampling methods have been added</p> <p>Parental and assent consent have been mentioned in the manuscript. The plagiarism issue has been addressed and modifications have been made.</p>
