

SDI Review Form 1.6

Journal Name:	International Blood Research & Reviews
Manuscript Number:	Ms_IBRR_47224
Title of the Manuscript:	Assessment of Protein C and Protein S in Pregnancy loss victims
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<ol style="list-style-type: none"> Not explained if any of the patients had baseline low levels of Protein C/S and other confounding factors like other thrombosis etc are not being excluded. The results section need more details. Age of the patient, gestation age at pregnancy loss/normal pregnancy, time of measurement of levels with respect to delivery, other comorbidities like preeclampsia, HELPP etc needs mention. Conclusions are generalised statements, not drawn from current study. 	Inputs have been rectified
Minor REVISION comments	<ol style="list-style-type: none"> The study is not powered to establish causative association between low protein C and pregnancy loss. It just shows presence of low levels in these patients. This should be corrected in abstract and discussion. 	
Optional/General comments	Overall, English language corrections need to be made.	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
