

Editor's comments:

I am attaching the suggested comments for your concern. Kindly follow the attached files.

Author's feedback:

Period? - July 24th 2017 to August 24th 2017

Standardize 1 Liter– 1000ml

Standardization on line 68 and line 70- I would prefer to remain as it is since the procedure is from the standard protocol.

Keep Table 1 and 2 as it is- Correction made, Maintained the previous table

Figure 1: Proportion of donors' samples with Chlamydia trachomatis at RBTC (should come after the figure) – correction made

Table 3- Correction done following that of table 1

The authors' responsibilities were as follows; -Been filled

Grammatical error on line 155 and 156 – been corrected

Added information on discussion from line 158 to 165

All the suggested corrections have been made.
