EDITORIAL COMMENT'S on revised paper (if any)	Authors' response to editor's comments
<p>Th DNA sequence data should be shown due to the polymorphysm-based Sequence.</p> <p>The gene is well known in the field. Therefore, the figure will help to understand it.</p>	<p>First of all I appreciate your valuable comments I added DNA sequences of gene as you advised in material and method as separate subheading.</p> <p>I didn't make any figure for gene except mentioned in manuscript related to PCR.</p>
