PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<p>Line 53: spelling error "phytostablization"</p> <p>Introduction is too shallow, authors should mention briefly the background of the selected plant species and why are they chosen for the phytoextraction of heavy metal</p> <p>Author should also briefly describe why the soil in Wadi Hanifa is higher in heavy metal. Why choosing WAdi Hanifa as the studied site?</p> <p>Authors need to follow the rules of naming species in Biology, "<i>Conocarpus erectus</i>" only need to be mentioned full at first use at the main text, and as <i>C. erectus</i> thereafter. Please correct for the whole manuscript</p> <p>Table 2 does not provide much useful information can be omitted. The genus and species name in the text will be sufficient.</p>	<p>Introduction is improved</p> <p>The genus and species is deleted.</p>
Minor REVISION comments		
Optional/General comments	General comments: There is nothing much to comment apart from the introduction that need some more work, and a few minor errors.
