<p>My major issue was the quality of writing of the article.</p> <p>I have revising the manuscript to make it acceptable for publication (a revised manuscript is attached). I hope the authors will accept the recommended revisions because otherwise the article should not be published.</p> <p>I believe it's important to be a mentor of researchers and hopefully they can apply the changes I made in their manuscript to future manuscripts/</p>	<p>Thank you for your valuable comments. All suggestions have been incorporated in green color.</p>
