PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	I've read with interest case report that described unusual appearance of primary malignant melanoma of brainstem. The case is well written and surely interesting to wider audience.	
Minor REVISION comments	I will suggest to obtain informed consent prior to publication. Did authors have MR-spectroscopy images of the case?	<ul style="list-style-type: none"> MR Spectroscopy was not performed during MRI examination Multiple attempts were made to contact patient and relatives but contact could not be made therefore written consent could not be obtained. Exemption for ethical approval regarding this case report has been obtained from ethical review committee of Aga khan university hospital after thorough review and requirement of signed consent form is waived. I have Attached the ERC exemption letter with the email
Optional/General comments	I have no major comments.
