

**Editor's Comment:**

However, based on its content i would suggest the title of this paper to be changed to :

**Incidence of Pulmonary papillary carcinoma in dromedary camels affected with pneumonia: A Sudanese first report.**

**Author's Reply:**

OKEY, this is moreclear, accurate and expressive

Thank for your valuable comment.

I think no need to attach the ethical clearance at the last of paper, I wrote this paragraph

**ETHICAL APPROVAL**

All authors declare that they are legally sampled the animals following all ethical procedure and they have run the requested test perfectly with ethical standards.
