EDITORIAL COMMENT'S on revised paper (if any)	Authors' response to editor's comments
However, it should further be adapted: English revision is needed, and I do not find any references to the Tables 1-9 in the text (e.g., "Table 1 shows.."); the figure does not even have a legend (!), and it is completely unclear what it shows; again, there's no reference to it in the text.	Thank you for your observations, The tables have all been properly labeled and described. However in order not to complicate comprehension repeated references to the tables in the discussion was avoided since they were self explanatory stand alone.
