PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments		
Minor REVISION comments	This paper deals with the quantity of drinking water, it is very important for the health of local people, I support it to be published in the journal after minor revision. 1, all tables are in three-lines format; 2, a space must be inserted between number and its unit; 3, what is the means of X in the expression of "15 x 10 ¹ cfu/ml-52 x 10 ¹ cfu/ml" is x a variable or multiply symbol? 4, the description of sample sites are too complex through of the text, table and figures.	I have edited all the tables to conform to the three-line format. I have inserted a space between number and its unit The "x" is a multiplication symbol. I have edited it Noted sir, it have been corrected
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
