

**SDI FINAL EVALUATION FORM 1.1**

**PART 1:**

Journal Name:	<a href="#">Journal of Advances in Microbiology</a>
Manuscript Number:	Ms_JAMB_47448
Title of the Manuscript:	Phytochemical and Antimicrobial Activities of Bryophyllum pinnatum and Vernonia amygdalina Leaves Extracts on Selected Microbial Isolates from Wound Infection
Type of Article:	Original Research Paper

**PART 2:**

FINAL EVALUATOR'S comments on revised paper (if any)	Authors' response to final evaluator's comments
<p><b>VERY IMPORTANT:</b> A. The experiment is done on extract of fresh, succulent leaves, as clearly written in the resubmitted M/S. I have experimented on such succulent leaf extracts for the first time. It is logical to refer such previous experiments. The following publications are directly related with this article.</p> <p>1. Pattanayak S. Alternative to antibiotics from herbal origin – outline of a comprehensive research project. Current Pharmacogenomics and Personalised medicine 2018; 16(1): 9 - 62. DOI: 10.2174/1875692116666180419154033.</p> <p>2. Pattanayak S. (2019) Healthcare system using succulent parts of plants. Vol. 1: For infectious diseases. [ISBN: 978-93-5346-842-2].</p> <p><b>BUT NONE IS INCLUDED IN THE REFERENCE LIST.</b></p> <p><b>B.</b> Many tables are kept as Photos. It is not accepted in any good journals. So, all tables may be added in MS word form.</p> <p>2. In some cases, P=≤ is written. It means nothing. These must be corrected.</p>	<p>Reference no. 1 has been included (REF.NO. 17) due to its relationship with this research (Herbal Alternative due to MDR Microbes) but Reference no.2 as stated by the final Evaluator must not be included due to academic fraud.</p> <p><b>(B)The corrections have been made, thanks for your observations and cooperation.</b></p>
