

SDI Review Form 1.6

Journal Name:	Journal of Advances in Mathematics and Computer Science
Manuscript Number:	Ms_JAMCS_49466
Title of the Manuscript:	Perturbation approach in the dynamic buckling of a model structure with a cubic-quintic nonlinearity subjected to an explicitly time dependent slowly varying load
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<p>Highlight the part which was originally modelled by the authors that has not been reported before. For ready reference please see the following manuscript. “ Asymptotic Investigation of the Buckling Of a Cubic-Quintic Nonlinear Elastic Model Structure Stressed By Static Load and A Dynamic Step Load”</p>	All the corrections have been done
Minor REVISION comments		
Optional/General comments	Very generic approach is adopted throughout this manuscript	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)	

As per the guideline of editorial office we have followed VANCOUVER reference style for our paper.
