PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	The article seems to be a good description of issues faced with patients with TBI and it explains clinical considerations while counselling the patient and their families. However, the scope of article is limited with references of only three published articles. There is need to make the article a review or minireview format to make it evidence based. The number of references needs to be increased and discussion part should be revised accordingly.	Thank you for your comments. We have tried to improve the manuscript and incorporated the answers of your query.
Minor REVISION comments		
Optional/General comments
