Compulsory REVISION comments	<p>- I have gone through the paper. No doubt it is a good work, but the result of about 4.3% incident of vertical transmission of <2% of people on HAART. To conclude that there is an increase in the people that book late is not entirely correct because majority of vertical transmission occurred during child birth and breastfeeding</p> <p>- The writer should supply DOI (Direct Observed Identification) number</p> <p>- Rearrange the references to standard APA (American Psychological Association) pattern which is the reference style for medical and health services. eg Reference number 19: Oladeinde, B. H., Phil, R. O., Olley, M., and Anunibe, J. A., (2011) Prevalence of HIV anemia among pregnant women. <i>North American Journal of Medical Sciences</i>, 3 (12) : 548</p> <p>- Reference number 16, 20, 26, 27, 28, 41, 43 and 45 to reflect the full name of journals.</p> <p>- Reference number 27 and 39 to reflect list of Authours and not et all.</p>	Thank you for your comment.
