Manuscript Number:	Ms_JAMMR_46815
Title of the Manuscript:	INCIDENCE OF VERTICAL-TRANSMISSION OF HIV AND ITS CORRELATION WITH MATERNAL GESTATIONAL AGE AT ANTENATAL BOOKING IN PORT-HARCOURT, NIGERIA
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments		
Minor REVISION comments	Methodology and obtained results are very well performed and then discussed. The only comment considering the names of discussed authors (for example: page 21, line 18: "is lower than the findings of (33,38, 39)). Maybe it should be worth to give names as well?	Thank you for your comments. Corrections done.
Optional/General comments	Highly valuable study considering HIV vertical transmission and its prevention in Nigeria. In the discussion authors very carefully access and analyse their results and compare with the results of other investigators in Africa. The whole study is written in very good English. Discussion part is very captivating. I hope authors will continue their work on methods of lowering HIV incidences in newborns in Nigeria.	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<u>(If yes, Kindly please write down the ethical issues here in details)</u>
