

**SDI Review Form 1.6**

Journal Name:	<a href="#">Journal of Experimental Agriculture International</a>
Manuscript Number:	Ms_JEAI_41780
Title of the Manuscript:	Evaluation of genetic diversity by molecular markers ISSR of Algodoeiro Gossypium mustelinum in native populations of Pernambuco Brazil.
Type of the Article	Original Research Article

**General guideline for Peer Review process:**

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

**PART 1: Review Comments**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	<p>It's a well written paper although the authors explore superficially the results. The authors use only 4 ISSR primers (low number for a molecular marker that is not used nowadays) to infer local cotton diversity. The discussion needs to be explored with international literature – basically the authors used Portuguese references (I try to find and was almost impossible). Format errors I used a yellow colour. The figures show Portuguese language. I also suggest an English review.</p>	NOTED
<b>Minor</b> REVISION comments		
<b>Optional/General</b> comments
